

SHAHZAIB ALI

Flutter Developer

@ ishahzaibali1472@gmail.com <https://github.com/Shahzaibshk> Hafizabad, Pakistan

SUMMARY

I'm Shahzaib Ali, a Flutter developer with 1.5+ years of experience building smooth, cross-platform mobile applications using Dart and Flutter. I design clean, responsive user interfaces and develop custom components that enhance user experience. I integrate Firebase backends and leverage Riverpod for robust and scalable state management. From real-time data handling and file uploads to performance optimization, I deliver end-to-end mobile solutions.

EXPERIENCE

Junior Developer

Arsync Solutions

11/2024 - Present

- Developed and deployed **3+ production-grade Flutter applications** from concept to App Store & Play Store release.
- Built **VOS Mental Health**, a stress-relief and meditation platform featuring real-time Call & Chat sessions with helpers and counsellors.
- Contributed to **MAGNIFEST**, a meditation and sleep app offering relaxation content and sleep sounds, and implemented **subscription-based in-app purchases using RevenueCat**.
- Built a **Habit Tracker App** featuring good/bad habit monitoring with efficient local persistence via Hive local database.
- Integrated backend services including **Firebase Authentication**, **Cloud Firestore**, and **Stripe payment gateway**, **In-app-purchases**, for secure and seamless transactions.
- Deployed apps to both App Store and Play Store, and configured push notifications to boost user engagement

Internee

Orion Techz

05/2024 - 10/2024

- Learned Dart and Flutter from scratch, getting up to speed on widgets, layouts, and state management
- Thrived in a collaborative environment, absorbing best practices for clean code, agile workflows, and app store publishing
- Collaboratively implemented clean code architecture with Riverpod + Flutter Hooks, ensuring scalable, maintainable code
- Gained hands-on experience with Firebase Firestore.
